UNIVERSITY

faces

2001-02

Introduction

This is Christopher Newport University — the faculty and staff who are the heart and soul of this special place. On the following pages are the faces, names, titles, phone numbers and e-mail addresses of the faculty and staff who work as a team to prepare our students for life. As a team, we must communicate effectively and often. To help facilitate this communication process, we have developed this book — CNU Faces.

Please use this as a resource and get to know your colleagues by face and by name.
