1985

Annual Report  
of the  
President

# PRESIDENT'S MESSAGE

THE 1984-85 academic year at Christopher Newport College saw significant steps taken toward achieving the comprehensive status envisioned for the College.

In academics, a new "core curriculum" has been established to be undertaken by students beginning in the fall semester of 1986. This curriculum will contain those courses determined by the faculty to be essential for all matriculating students and promises to add significantly to the uniqueness of being a Christopher Newport College graduate.

Financially, in support of the academic program, historical firsts were achieved with the receipt of funds for participation in the Commonwealth's Eminent Scholars and Funds for Excellence programs. In addition, the W. R. Patrick Scholarship and the Jean B. Falk Professorship were established for the benefit of students in the sciences and in music, respectively. Finally, funds for the renovation of Gosnold Hall were appropriated by the General Assembly, a rare occurrence in an off-year session, and a tribute to our delegation in the General Assembly who also were persuasive in scheduling a stop at the College for the legislators who were reviewing Commonwealth facilities in Hampton Roads. In passing, I might add that the halls of the General Assembly Building during the session were graced with the Awards winning art works of our student artists. Many laudatory com-

ments were received from legislators on these efforts to make aesthetic the legislative environment.

The College's Honors Convocation, held in May to recognize students who distinguished themselves during their academic careers was not only a fitting highlight of graduation weekend but also underscored the College's commitment to continued academic excellence in the future. This commitment will carry over into CNC's participation in two major, new cooperative programs—the articulated Bachelor of Science degree in Nursing with Riverside Hospital School of Professional Nursing and the cooperative Master of Business Administration degree with William and Mary.

In athletics, Christopher Newport

College excelled again, winning the Dixie Conference President's Cup, emblematic of overall sports supremacy, for the second consecutive year.

In ROTC the College, along with host William and Mary, was named one of the top 15 programs in the nation.

In fund raising, job placement, and student activities, 1984-85 was a year of many firsts, the details of which are described in the reports of the respective vice presidents.

In summary, this year has been a significant one in the life of the College, the responsibility for which lies with the instructional and administrative faculty and staff who devote so much of their time, energy, and love into this institution.

*Dr. John E. Anderson, President*

*John E. Anderson*

John E. Anderson  
President

# THE BOARD OF VISITORS

CHRISTOPHER NEWPORT COLLEGE was established in 1960 by the General Assembly of Virginia as a two-year branch of the College of William and Mary. Gaining independent status on July 1, 1977, the College is now a four-year baccalaureate institution designed to offer educational programs that respond to the learning needs of its students and the metropolitan area which it serves.

The Board of Visitors is the governing authority of Christopher Newport College. Members of the Board are appointed by the Governor on a rotating basis to serve a four year term. The Board is responsible for establishing policies and supervising the activities of the College.

The current membership of the Board of Visitors is listed below:

*Mr. Stephen D. Halliday*  
*Rector of the Board*

	BOARD OF VISITORS	END OF TERM
Rector	Mr. Stephen D. Halliday	June 30, 1986
Vice-Rector	Mr. William T. O'Neill	June 30, 1986
Secretary	Mr. Billie M. Millner	June 30, 1986
	Mrs. Martha M. Ailor	June 30, 1986
	Mr. Erwin B. Drucker	June 30, 1987
	Mrs. Dorothy B. Duffy	June 30, 1987
	Mr. Gordon L. Gentry	June 30, 1985
	Mr. A. Jack Georgalas	June 30, 1988
	Mrs. Betty N. Levin	June 30, 1988
	Mrs. Mary L. Passage	June 30, 1985
	Mr. William R. Savage, Jr.	June 30, 1985
	Mrs. Mary Alice Spear	June 30, 1988
	Mr. William R. Walker, Jr.	June 30, 1986
	Mr. J. Dewey Wilson	June 30, 1987

*Board members Erwin B. Drucker, Mary Alice Spear, Betty N. Levin, Gordon L. Gentry, and Martha M. Ailor at a recent Board meeting*

## ACADEMIC AFFAIRS

**Dr. Richard M. Summerville**  
Vice President for Academic Affairs

**C**ONTINUED ENHANCEMENT of the College's academic programs occurred during the 1984-85 session, and significant progress was made in CNC's efforts to serve the educational needs of the growing, diverse population of learners on the Virginia Peninsula.

At graduation ceremonies in January and May, the College awarded baccalaureate degrees to 446 students – 170 in Social Science and Professional Studies, 166 in Business and Economics, and 110 in Letters and Natural Sciences. Over 84,000 student credit hours were taught by CNC's full-time, part-time, and adjunct faculty.

Christopher Newport College's first annual Honors Convocation, held during the May graduation weekend, provided a unique opportunity to recognize exceptional academic achievement by CNC students. More than 150 departmental, school, and College-wide honors were bestowed at the convocation.

Increased access to professional education will be available to Peninsula residents through cooperative arrangements with the College of William and Mary and the Riverside Hospital School of Professional Nursing. The cooperative Master of Business Administration degree program with William and Mary will enable students to pursue graduate business studies on a part-time, evening basis. The articulated Bachelor of Science in Nursing program is an innovative approach to health care education developed jointly by

Christopher Newport College and the Riverside School of Professional Nursing which will allow nursing students to benefit from the combined resources and expertise of the respective institutions.

Revision of the general education requirements for all students was a development of campus-wide impact. The restructured curriculum, a product of extensive faculty and administrative involvement, will be implemented in the 1986 fall term.

Among other major accomplishments of the year were:

- The opening of the new Science Building
- the securing of funds to begin renovation of Gosnold Hall
- ongoing participation by faculty and staff in the SACS self-study process
- theatrical productions of *Medea* and *Carousel*
- exhibition of student art in the General Assembly Building
- the 100th program in the monthly concert series, choral concerts, and the Ramseur Concert Series
- book publications and presentations by five members of the faculty, and numerous faculty publications and presentation of articles and reviews
- the establishment of the Jean Falk Professorship in Music
- faculty organization and direction of the Virginia Humanities Conference, Conference on Critical Thinking, Foreign Language Association of Virginia Annual Meeting, Forum on Aging, and special one-hour courses for CNC students on "Peace and War" and "Nuclear War and National Policy"
- successful participation in the Virginia Faculty Exchange Program
- increased integration of microcomputers into instructional programs
- continued publication of the *Peninsula Business and Economic Report*
- continuation into its second year of the Brauer Professorship, held in 1984-85 by Dr. Marshall Booker, Professor of Economics
- revival of the "Medieval/Renaissance Week" on campus
- continued support for faculty development programs with the awarding of 22 grants totaling nearly \$16,000
- increasing success of CNC accounting majors taking the Virginia CPA examination

THE OFFICE OF CONTINUING EDUCATION conducted over one hundred programs involving well over 3,000 Peninsula residents, both adults and youths. The office also produced and distributed the monthly *Peninsula Business-Economic Report* with the College's Bureau of Business-Economic Research and provided other services to the College as opportunities arose.

Program offerings included business and professional development, educational and personal enrichment, and leisure activities. Business and management topics increased most rapidly, particularly courses and workshops tailored for specific needs of Peninsula organizations.

Several annual events more closely linked the College and the community: the Writers' Conference, the

Leadership Institute with the Virginia Peninsula Chamber of Commerce, the Estate Planning Forum with the Peninsula Estate Planning Council, PLUG-IN-PENINSULA at the Coliseum Mall, and the Board Bank with the Voluntary Action Center and the cities of Newport News and Hampton. The office increased cooperative and co-sponsored programming with other professional, business, civic, cultural, and governmental organizations.

WITH NEARLY 10,000 new volumes added to the Captain John Smith Library, CNC's collection for the first time will meet the State Council of Higher Education's minimum recommendations for collection size by the end of the fiscal year. The library also increased its periodical subscrip-

tions by 31%, adding 319 new titles for a total of 1,037 subscriptions.

The Nick and Mary Mathews Library of American Presidents, a significant collection of journals, papers, and other presidential materials, was created by a gift from the Mathews family.

Several new library services were added, including Paper Trace, a term paper consulting service, audio-visual instruction workbooks, instructional videotapes, and additional micro-computer resources in the media department. Dramatically increased use of library resources occurred in 1984-85, especially in the areas of audio-visual viewing facilities and software, bibliographic instruction, and interlibrary loan. Overall circulation increased nine percent, and circulation of reserve materials increased 18 percent.

*Chemistry students will benefit from the modern facilities in the New Science Building*

# FINANCIAL AFFAIRS

**I**N FINANCIAL AFFAIRS the College is completing a very successful year. From the recession suffered during the 1982-1984 biennium, during which substantial reversions of General Fund occurred, the Virginia economy has recovered well. This economic recovery appears at present to have removed the threat of further significant reversions. The College's general fund and tuition and fee revenue accounts have both performed well during the fiscal year drawing to a close on June 30, 1985.

Initial enrollment during the fall of 1984 was somewhat soft, with full time equivalent students at the fall census reported at a level below the originally appropriated enrollment forecasts, which were developed during the fall of 1982. In contrast, the College's spring 1985 enrollment was slightly better than expected, with fall-to-spring attrition four tenths of a percent less than the prior year. At the beginning of the fiscal year the College initiated the new standards for the determination of residency as required by the revised Virginia Code. Increased rigors in this program had the beneficial effect of an approximate doubling in the College's out of state tuition accounts. During this fiscal year the College has also experienced a higher than normal vacancy rate in personnel positions. The combined effects of decreased personal services costs, improved revenue performance in the spring and improved performance in the out of state accounts have resulted in a comfortable prospect for the year end.

**Mr. James D. Eagle**  
*Vice President for Financial Affairs*

As a consequence of the variance in enrollment performance with respect to the forecast, the College revised its long range estimates in the fall of 1984. This revision could have resulted in a substantive budget reduction in the 1985 session of the General Assembly. Fortunately, both the State Council's recommendations and the final action of the General Assembly resulted in favorable treatment of enrollment performance. Guidelines calculations were reaccomplished and the College's position with respect to attainment of guidelines was increased from the low nineties to approximately 96%, thus preserving appropriations for the current year as well as protecting amounts appropriated for fiscal year 1985-1986, which begins on July 1, 1985.

Again on the positive side, the College has received substantive appropriations during the current biennium for the purpose of enhancing instructional equipment. The Governor's target for fiscal year 1984-1985 included approximately \$185,000 for this purpose, and the General Assembly has included over \$337,000 for this fund for the coming fiscal year. This program recognizes, on a state-wide basis, that in the past, instructional equipment funding has suffered first when budget actions required reductions. It is a significant step in the direction of improved quality in instruction. The College has thus been enabled to make needed purchases in support of its Physics, Computer Science, and other equipment-intensive programs. We will also up-grade

our main academic computer, moving from the Prime 750 to the Prime 9955. The College also is in the process of acquiring two micro-processor laboratories to be installed in Newport Hall. These facilities should all be available for the fall 1985 instruction programs. We should note in passing that we have again this year also met our library acquisitions goals, with such purchases expected to meet or exceed appropriated guidelines.

During the 1985 session of the General Assembly the College received appropriation of \$699,100 for the planned renovation of Gosnold Hall. This renovation will include up-date of the facilities for support of Physics, Computer Science, the Arts, Mathematics, and the School of Business. The College also received additional appropriations for fiscal year 1985-1986 in support of a cooperative MBA program with the College of William and Mary, including \$105,000 of General Funds for library acquisitions.

The projected final expenditures for state appropriated funds are listed at **Table One**. This table has been modified this year by the addition of the Capital Outlay category. It is noted that the decline in this category has taken place as a consequence of completion of major building programs during fiscal year 1983-1984. Expenditures during the current fiscal year in the Capital Outlay category have consisted primarily of equipment purchases in the new science building, minor projects in the main-

tenance reserve account, roof repairs, and other construction items not involving new space. The three year statistical comparisons for operating expenditures are consistent with modest programmatic growth, combined with inflation in those non-personal service areas which have experienced that phenomenon. During this fiscal year we have continued to feel the effects of state-wide policy initiatives in the expense category of personal services. It is noted that the state funding policy has been to provide appropriations or central funding supplements for the costs of these policy initiatives, most of which have involved assumption of the costs of fringe benefits by the state. Such funding is normally provided at significantly less than total cost, requiring the College to raise its share through tariff increases of one kind or another. The current fiscal year

includes the costs of a ten percent salary increase for faculty and a 8.6% increase for classified and hourly employees.

**Table Two** provides a listing of campus facilities, including the year of acceptance and total usable and gross square area.

**Table Three** provides a comparison of State Appropriated General Fund Revenues as a percent of total current fund expenditures for the last six years. The decline in state support as a percentage of total appears to have stabilized at its lowest level in the 1982-1984 biennium, followed by a trend upward for the current fiscal year. This is an encouraging sign. It is particularly encouraging in view of the fact that overall dollar growth in the non-general fund component of current funds has increased by slightly over five percent in the same year.

As we close the year and prepare for the coming year it is particularly noteworthy that for the first time in our institutional history the College expects to receive Funds for Excellence as well as funds to allow us to participate in the Eminent Scholars Program.

Finally, it is gratifying to note that our endowments and similar funds have grown from a balance of \$251,192 at the beginning of the year to a balance of well over \$370,000 at the end of the third quarter (Foundation not included). It is, perhaps, too soon to chart our growth in this area. As the College continues its growth towards a mature institution we would hope to see this function continue at the rate of increase it has experienced for the past two years.

**Table One**  
**Projected Final Expenditure – State Accounts**

	1982-1983 Actual:	1983-1984 Actual:	1984-1985 Projected:
<b>Educational and General Services:</b>

**Note:** General Fund listed includes amounts transferred to the College as cash revenues as a consequence of appropriations to the College. General Funds originally appropriated to other agencies which are subsequently transferred to the College in support of special programs are not included.

## STUDENT AFFAIRS

ONE OF THE MOST EXCITING and visible achievements of the 1984-85 academic year has been the growth and development of the Employer Relations component of the Office of Counseling and Career Services. Two new staff members were employed this year; Judith Hietanen as Director in July, 1984 and Lynn Ballard as Assistant Director in January, 1985. Together with Dr. Frank Babcock and Glen Vought the Office of Counseling and Career Services has helped more students and has contacted more potential employers than in any previous year. A major objective this year has been to strengthen existing and develop new working relationships with local businesses, industry and government agencies. Several major activities are worth noting.

- A luncheon was sponsored for representatives of approximately sixty Tidewater firms to increase visibility of the College and meet prospective campus recruiters. The luncheon featured Mr. Dick Irish, a nationally known author and consultant on personnel matters.
- A Professional Exchange Day brought together approximately forty local business representatives and members of the College faculty and staff. The Exchange included a panel of representatives from the private and public work sectors and members of the academic community. The Exchange Day included a luncheon and a tour of campus facilities.
- A brochure has been designed for recruiters and prospective recruiters outlining the benefits of the on-campus recruiting program. The brochure also includes a description of the Job-Listing/Job-Seeking Service.
- The number of on-campus recruiters increased in the fall and spring semesters and efforts to increase the number and diversity of recruiters will continue. This year the on-campus recruiting program brought ninety employers to campus and over six hundred interviews were held. In addition, approximately two hundred part-time opportunities were listed in the computer data bank through the Job-Listing/Job-Seeking Service.
- Internships and work experiences in both the public and private sectors are being developed for

*Dr. Charles E. Behymer, Jr.  
Vice President for Student Affairs*

the College's International Culture and Commerce majors, Computer Science and Information Science majors, as well as Business and Economics majors. Agencies such as NASA, Social Security Administration and Fort Monroe have expressed an interest in Christopher Newport College interns. Companies such as Bendix, Avon Fashions, Riverside Hospital and Anheuser-Busch have also expressed an interest in developing internship programs.

- Numerous information-giving and skill-building seminars were held to assist students in Resume Preparation, Interviewing Techniques, Job Search Strategies, Federal Employment Application Procedures and Investment Dressing.
- Fifty to seventy-five students per month were served through 30 to 60 minute formal appointments with the career services staff to review resume rough drafts; assist in interviewing skill development; and discuss career-related issues.

The Office of Counseling and Career Services also provides assistance to students in selecting careers. The center utilizes the computer-based Virginia View career information system, interest assessment devices, and counseling and career information materials to help students resolve career indecision. The creation of a network of alumni willing to provide career information to current students is under consideration as a future objective. Individual counsel-

ing services are also available to students who need assistance in resolving adjustment issues which interfere with their ability to profit from their educational experience.

Finally, the Counseling and Career Services office serves as the College's testing service by administering the CLEP program and placement testing programs. CLEP tests were given to 180 students and approximately 2,200 placement exams were administered during the 1984-85 fiscal year.

1984-85 was also a very busy year for the Offices of Admissions, Registrar and Financial Aid. During the year now ending, the Admissions Office received and processed a total of 3,521 applications for admission, 2,402 for the fall 1984 term and 1,119 for the spring 1985 term. As a result of these applications, 2,717 new students entered the College this year, bringing this year's fall enrollment to 4,268 students.

Once again this year, CNC was one of the few public colleges in Virginia to meet its goals in enrolling first-time black Virginians for degree programs. A total of 156 such students were newly-enrolled, precisely 100% of the College's goal for the 1984-85 year.

The single most significant development in the Admissions Office this year has been the design and implementation of an automated transfer evaluation system for Virginia Community College course credit. This system, the result of a collaborative effort on the part of Admissions and

the Computer Center, is the first such system of its kind in the State and, perhaps, in the country.

The Veterans Affairs Office continues to provide support and assistance to students enrolled at CNC who utilize Veteran Administration education benefits. Clients served include veterans, active duty personnel and widows and dependents of veterans. During school year 1984-85 approximately 300 clients were served. Services provided include but are not limited to advising on benefits, processing requests for benefits, certifying enrollments to the VA, maintaining files on clients and other supportive services.

The College, through the Offices of Admissions and Registrar continues to maintain a very visible presence on the local military bases, most notably Langley Air Force Base, the Yorktown Naval Weapons Station and Ft. Eustis. Admissions staff annually see some 400 active duty military and our consortium representatives see approximately 700 additional active duty military annually. In addition, as a result of our presence on the bases approximately 300 military

*A variety of art courses is available for credit or through continuing education*

*On-line computer system enhances the registration process*

dependents are also assisted. It is significant to note that approximately 25% of our total enrollment at CNC included active duty military, their dependents and veterans.

The Office of the Registrar performed its usual role of facilitating the registration of approximately 30,000 course enrollments and the attendant functions of certifications, grade reporting, and permanent record maintenance.

For the year, the Registrar certified 446 degree candidates for graduation including 110 from the School of Letters and Natural Sciences, 170 from the School of Social Science and Professional Studies, and 166 from the School of Business and Economics.

In addition, planning is underway in the Registrar's office for the design and implementation of a computerized degree audit system which will greatly reduce the manual process of reviewing degree requirements for graduating students. This system will furnish effective advising documents to assist students and advisors in course selections and degree progress.

The Office of Financial Aid reports that federal, state and private awards totaling approximately \$745,000 were made in 1984-85. The Guaranteed Student Loan Program and non-work-study wages provided an additional \$1,288,000. The number of Guaranteed Student Loans processed increased from 457 in 1983-84 to 570 (thus far) in 1984-85. The total dollar value of the loans processed increased from \$689,385 in 1983-84 to \$1,028,238 thus far in 1984-85. This is a 25% increase in the number of borrowers and a 49% increase in the amount borrowed.

Tentative funding allocations for 1985-86 for the federal campus-based programs (NDSL, SEOG, CWSP) increased from \$120,956 in 1983-84 to \$160,862 in 1985-86, a 33% increase. The state appropriation for 1985-86 is \$153,065 compared to appropriations for 1983-84 of \$87,465. The funding for the state's CSAP program remains the same at \$50,193. The Financial Aid office also published a new and expanded brochure, the *Christopher Newport College 1985-86 Financial Aid Guide*. The new

The Campus Program Board continues to serve the student body with its wide range of activities. One notable development is the new partnership between the Campus Program Board and the Virginia Stage Company. The Campus Program Board is now hosting a spring production of that professional stage company on campus with all plans to continue the partnership in future years. publication includes not only traditional information about need-based programs, but also includes information about non-need-based programs. The brochure provides a description of all of the private scholarships, the criteria for selection and the application procedures. The Guide will provide students, in one publication, with information on all available sources of financial aid.

The Financial Aid office recently installed a comprehensive financial aid software program, SAFERS 3000. For the first time the office will be able to process aid applications on the computer as well as calculate students' need, better assess total need

and unmet need, and prepare College, state and federal reports.

The new Campus Center continues to attract large numbers of students, faculty, staff and community members. Overall usage of the building for Continuing Education classes and functions, meetings, catered breakfasts, lunches and dinners, as well as social activities for the students continues to grow. In particular, the catering functions at the College for both College and community users have markedly increased. Finally, the College Bookstore completed its move to the Campus Center during the summer and has been a welcome addition to the building.

Student interest in activities has continued to flourish during the past year as several new organizations were chartered and an additional national fraternity was colonized. To date there are approximately 50 student organizations, three fraternities, three sororities and five honor societies on campus.

*Preparing for a CNC Theatre production*

## DEVELOPMENT

*Mr. L. Barron Wood, Jr.  
Director of Development*

**D**URING 1984, the generous acts of 696 alumni and friends brought to the College gifts valued at \$812,640. This was the largest response in the eight year history of the College's fund raising efforts – exceeding 1983's record of \$315,225. The average gift was \$1,168. The leading gifts were presented by Eduard Nakhamkin, Robert Bardey, Michael Dinkes, E. E. Falk, Hatcher Cale, Godfrey L. Smith, Mrs. Catherine Abbitt, and Newport News Shipbuilding.

The center of the 1984 giving was the Annual Fund Drive under the leadership of its General Chairmen, Richard Abbitt and Donald Patten. The chairmen were assisted by Mrs. Patsy D. Carpenter, Chairman for the College Community; Roman Schenkan, Chairman for the Alumni; Mrs. Mary L. Passage, Chairman for Friends and Neighbors; Alan Witt, Chairman for Professional Community; William T. O'Neill, Chairman of Business Community; and John Marks, Chairman for Civic Community. They were joined by thirty volunteers who worked by letters, phone calls, and personal visits to represent the College throughout the Hampton Roads area. Their work was to draw patronage to the College and to develop the membership for the six parts of The Society of Patrons of Christopher Newport College and for the Alumni Association of the College. Resulting from this work are the following memberships:

**The John Rolfe Society**  
Membership Gift: \$25 to \$99  
306 Members

**The Captain John Ratcliffe Society**  
Membership Gift: \$100 to \$499  
227 Members

**The Captain Bartholomew Gosnold Society**  
Membership Gift: \$500 to \$999  
27 Members

**The Governor Mariah Wingfield Society**  
Membership Gift: \$1,000 to \$1,499  
30 Members

**The Captain John Smith Society**  
Membership Gift: \$2,500 to \$4,999  
12 Members

**The Captian Christopher Newport Society**  
Membership Gift: \$5,000 and above  
13 Members

**The Alumni Association**  
Membership Gift: \$1.00 and above  
201 Members

## Annual Giving 1984 Arranged by Management Source

During 1984, the \$812,639.85 in gifts to the College followed two routes – to the College through the Christopher Newport College Educational Foundation, Inc., and to the College directly. Sixty-four percent of the gifts were sent to the Foundation; thirty-six percent to the College. Below is a breakdown of giving to the Foundation and to the College.

## FOUNDATION

<b>Cash</b>		
Unrestricted	\$ 39,095.50	\$ 56,066.50
Restricted	\$ 16,971.00	
<b>Gifts-In-Kind</b>		
Furniture	\$ 6,700.00	
Equipment	\$ 8,321.00	
Services	\$ 255.29	
Art	\$446,050.00	\$461,326.29
<b>Total Foundation Donations</b>		<b>\$517,392.79</b>

## COLLEGE

<b>Cash</b>		
Unrestricted	\$ 31,276.00	\$261,866.52

Equipment	\$ 15,112.50	
Landscaping	\$ 500.00	
Art	\$ 3,600.00	
<b>Total College Donations</b>		<b>\$294,360.06</b>

# ATHLETICS

*Athletic Director R. Beverly Vaughan, Jr., and President Anderson after winning the DIAC President's Cup for second consecutive year*

THE 1984-85 academic year was perhaps the most successful in Christopher Newport College's athletic history. Directed and supported by an energetic team of coaches and support staff, Captain student-athletes won the Dixie Intercollegiate Athletic Conference President's Cup for the second consecutive year, establishing CNC's program as one of the most competitive and well-balanced in NCAA Division III.

Notable among the year's achievements were shot-putter Claudia Stanley's national championship performance in the NCAA Indoor Track and Field competition and the cross-country team's first-ever national ranking, 20th in Division III. Miss Stanley, the first CNC student-athlete to earn an individual national championship, was All-America as a freshman and has been invited to compete internationally during the summer.

Silvia Douglas, a specialist in the 400-meter race, received All-American honors for the fourth consecutive year as the women's track team tied for 10th place in the nation.

Christopher Newport's perennially powerful track team won the Dixie Conference for the ninth straight year, and, as has been the rule in recent years, several student-athletes qualified for the national championships.

The success of the cross-country team was spearheaded by Dan Pittman who became the first Captain cross-country runner to earn All-America honors.

The soccer team, enjoying its finest season since 1977, finished 11-7-1 and established a school record for victories. Gerard Mosley was named

to the All-South Atlantic region first team, and two other Captains earned second team recognition.

The women's basketball team had one of its most successful seasons ever as the Lady Captains tied for first place in the Dixie Conference with a 16-9 record. The American Women's Sports Federation named Leanne Eyler second team All-America and Rory Peets fourth team. Pam Stewart won All-Dixie Conference honors.

CNC's rejuvenated women's volleyball team posted a 12-15 record in only its third season after having been disbanded briefly.

In his first season as head coach C. J. Woollum guided the men's basketball team to a 13-14 record and the semi-finals of the Dixie Conference tournament. Buck Moore was named All-Conference for the second consecutive year.

The baseball team finished with an 11-23 record and claimed two of the biggest victories in the school's history within the space of a week by defeating top-ranked Division II power North Carolina Wesleyan and Division I contender Duke University. Shawn Martin and Chris Molleen were selected to the All-Dixie Conference team.

Playing fast-pitch softball for the first time, the Lady Captains finished the season with a 15-6 record and third place in the conference race. CNC placed second in the conference tournament as Michelle Masco won All-Conference honors.

The women's tennis team had a 10-6 dual match record and narrowly missed winning the conference tournament. Four Lady Captains – Carrie Jones, Jenny Nuttycombe, Agnes Soter, and Joanne Ervin – won singles championships.

The men's tennis team won its last nine matches to close with a 10-14 record. Chip Lomax and Brian Runge won the conference number three doubles title.

The golf team was 3-7, finishing sixth in the Dixie Conference. The overall record of 128 wins, 103 losses, and one tie, a percentage of .554, was CNC's best in the past six years.

On the academic side in the selection of major courses of study, 33 have chosen Business Administration, 19 Leisure Studies, 8 Accounting, 6 each in Computer Science, Marketing, and Political Science, and the rest spread throughout the curriculum.

It was, indeed, a fine year for the school as represented by these scholar-athletes.
