Greetings everyone,

I hope you had a great summer and that you were able to recharge your batteries. We've got another great academic year ahead of us, with eager new students and excited returning students ready to make CNU come alive again.

You may know that the Class of 2014 will return this weekend (tomorrow) for Freshman Move-in. As is our tradition, hundreds of students, staff, and faculty will help our newest community members move into their residence hall rooms beginning first thing Saturday morning. We will do this all day Saturday and Sunday, so campus will be quite busy and parking will be at a premium. If you are coming to campus to join in welcoming our freshmen and their families, or if you're coming to get some extra work completed before next week, I ask that you try to park in the Ferguson Center lot if at all possible. We use the other lots to route cars so that we can more quickly and efficiently unload them.

Once we've helped all of our new students get settled, they'll be ready for Welcome Week. Running concurrently with Getting Started Week for Faculty, our Welcome Week activities are designed to help new students transition to college life at CNU. We have a number of workshops, advising sessions, presentations, and activities that we provide. If you have an interest in joining our new students for some of their events, please contact me and I'll be happy to make some suggestions for you.

We're very excited about our students return and it will also be good to catch up with many colleagues on a more regular basis. Thanks for all that you do to make CNU a special place for our students and for me.

Best,

Kevin
