I am pleased to report that the U.S. Congress has approved appropriations legislation that includes over \$2 million in federal funding for CNU.

- \$1.35 million for the Center for the Arts
- \$675,000 to the CNU Educational Foundation for the renewal of Warwick Blvd.

Senator John Warner was principally responsible for securing the \$1.35 million for the Center for the Arts that will flow through the City of Newport News to us. Senator George Allen strongly supported this effort.

Congressman Bill Young of Florida, Chairman of the House Appropriations Committee, and our representatives Jo Ann Davis and Bobby Scott were responsible for helping us secure the \$675,000 for the CNU Educational Foundation.

I hope that you will join me in expressing your appreciation to our elected officials for their leadership and strong support of CNU.
