Understanding Your Salary Increase!

There has been some confusion with regard to the salary increases that went into effect on July 25th and have appeared in your August 16th paycheck. Classified employees with 5 or more years of state service received an additional salary increase of \$65 per year of service up to 30 years. This salary increase is added to your annual salary and was not paid out in way of a bonus, but a permanent increase to your base salary.
