HOWARD CLARK - VICE-PRESIDENT

In the coming Student Government Association and Honor Council elections, Howard Clark will be running for two positions--that of Vice-President in the S.G.A. and Honor Council Representative.

Howard graduated from Warwick High School last year with a B+ average for his three years of work there. Here at Christopher Newport he is a student in good standing, whose grades range from A's to C's. A member of the German Club, he is one of the three young men composing the constitutional committee. Last fall, Howard was appointed to our college's first Honor Committee. Having served on this council for a year, he is fully aware of the responsibilities of this position. He is also accustomed to the operating procedures of the meetings through his past year's experience.

Having read this article, we ask you to consider Howard's qualifications and abilities; be sure you consider all the facts and issues involved; then vote wisely. Whether or not you vote for Howard, PLEASE VOTE.

SEE YOU AT THE POLLS--MAY 7th

DEAR STUDENT BODY:

I know that you are as proud to be a Christopher Newport student as I am. Our college is new, but already a fine institution. It is one whose faculty is dedicated to providing the tools for higher education, and whose student body demonstrates a willingness to use them. Our condition is one to be envied, for we have the privilege of receiving two years of sound education, while making the traditions that will remain long after those two years are past.

Most important of these traditions will be the type of leadership and personal integrity the student body will require. To a great extent, the election on May 7 will determine our approach to these vital areas of college life. We must have officers who will lead well, and Honor Council members whose own personal honesty will uphold the Honor Code.

We have a ticket whose candidates are offering their abilities to promote these ends. Each one is confident of his ability to fill the office he has petitioned for, and each realizes the need for close cooperation to channel those abilities to common objectives.

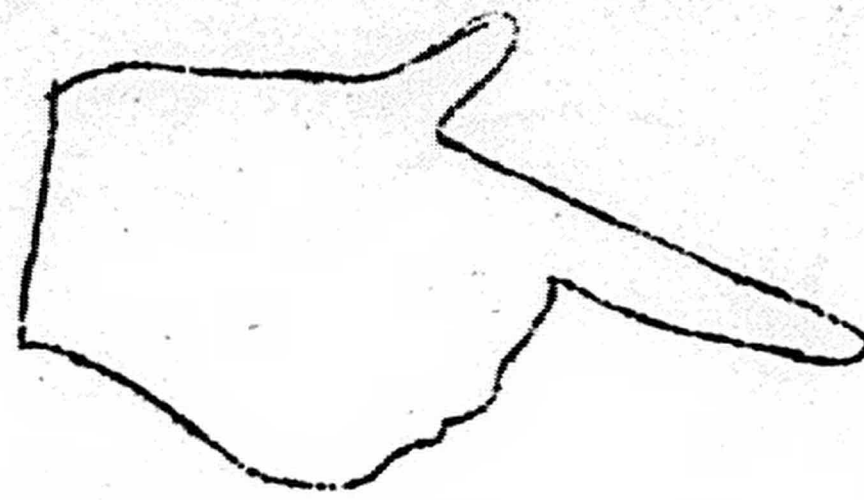

The objectives are: (1) To promote vigorous student approach to college life, (2) To convert the best desires of the student body into actions, (3) To keep the line of communication between administration and student body well open, and (4) To promote personal honesty on all levels of college life.

If the objectives we have listed seem worthy to become traditions, vote the ticket best able to bring them in.
