Chandler- sat on committee last year, would also co -sign if he could, fully endorse.
This is a good compromise.
Move to open discussion Deeley
Grace- this will help students
Farooq- idea was brought up to have students register within time restrictions
Diggs-what about those who may have class between those times?
Farooq-could be open before classes
Chandler-wording is intentionally vague
Judkins-the evening before could be good as well

b.Proposal 06.05 move to open discussion Deeley, seconded Simpson

this is a good program if we have to have alcohol on this campus

Simpson- this has worked at other schools, can use their plans as examples

Friendly amendment-

Dermer all amendments must be voted on regardless

1st whereas: “are changing” to read “have been and will continue to be reformed”

Creasman- Sigma Phi Epsilon Fraternity is trying to do something similar but cannot due to insurance and liability

Warner-clarification about where people could use the program

Layman-what about students coming back from off campus intoxicated, how will CNU Police handle those situations?

Bell- they will treat them the same way as now, if you are of age and are behaving with acceptable University conduct then they will not bother you, there will be alcohol vendors that will be able to serve to students who are of age

Simpson- look at Texas A&M

Warner if the senate finds it more comfortable to strike Mr. Moore’s name then so be it

Grace agrees that this is a good time for something like this to begin implementation

Deeley moves to close debate.
