of the
Horticulture Program
in Biology*

Mr. Emanuel E. Falk

The Falk Art Gallery is a living tribute to the late Emanuel E. "Mannie" Falk, a civic and business leader who helped transform the Peninsula into an industrial hub.

He and his wife, Jean, spent many volunteer hours serving the community, and especially Christopher Newport College.

Their generosity towards the area of fine and performing arts has provided for a larger music library, an endowed music professorship, and now, display and teaching facilities in the form of a gallery and art studios.

It is with sincere gratitude that Christopher Newport College accepts The Falk Art Gallery, a gallery that presents new opportunities for growth for our students and our community.

ON THE COVER

Ken Bowen, an adjunct computer art instructor for Christopher Newport College, created "The Gallery" especially for today's dedication.

John Petruchyk
