

SGA Cabinet Meeting
February 21, 2006
Happy Lobbying Day!

Mehreen:

- Lobbying: After long planning, today is the SGA legislative visit day- I'm in Richmond with Becky McClelland. Our two workshops last week were effective, however the turn-out was poor. In my opinion, advertising for the event was good with the exception that we could have used more fliers. Nonetheless, there were portal announcements, personal emails sent out, face book, govt faculty got fliers ... suggestions for improvements?
- Handbook changes (refer to Dr. Carlson)- I'll email all of SGA a memo with my final suggestions no later than Thursday to have those sent out to the Handbook committee by Friday.
- Last week we talked about sending out a newsletter to all students- see the draft of what I've put together, good? Bad? Editing? I was hoping to use this also at our budget presentation Wednesday and for Friday's BOV meeting
- *BOV meeting Friday
- I've been playing phone tag with Steve Pappas over this change machine thing, we're in the middle of a conversation about it ... I'm also going to try to meet with him this week to talk about recycling.

Molly:
