Fear 2 Freedom and the National Center for the Prevention of Community Violence invite you to a kick-off event for our new program called "GreenZone Relationships," on Wednesday, February 12, at 12:30 p.m., in the DSU Ballroom.

February is National Youth Dating Violence Prevention Month, and this month is also your chance to take a stand against this type of violence on college campuses. This program is dedicated to educating youth about what to watch for in negative relationships and how to live in the "GreenZone."

We encourage you to come out and take a stand toward preventing this type of violence among our youth. We can't wait to see you there!
