OPEN TO: Government and History majors or minors or any student who wants an interesting and fascinating way to earn 3 credits towards graduation.

The course will introduce students to the History, Politics and Culture of Eastern and Central Europe from the end of World War II to today.

WHAT'S IT ABOUT? As the Red Army drove Hitler's forces westward, Russia imposed Communist governments on Eastern and Central Europe. For over forty years these states and peoples variously tolerated, cooperated or rebelled against Soviet control. When Soviet power collapsed after 1989, the newly independent governments and societies had to face new challenges: rebuilding democracy, economic struggles, ethnic conflicts and international pressures. The three countries that we will visit, **Bulgaria, Hungary** and the **Czech Republic**, will give students an excellent opportunity to examine the issues and problems that troubled and continue to trouble the area as well as a chance to experience the culture and meet the people of these fascinating lands.
