

- I. Call to Order: 6.27
- II. Attendance: Absense: Senator Salemme
- III. Salute to Flag
- IV. Accepting of the Minutes:
 - a. Move to accept the minutes
 - b. Unanimous consent
- V. Think Tank Presentation
 - a. Karen Shoemaker: Retention rate, PLP, campus as a whole
 - b. Campus Improvement (Group) application. For Honors program
 - c. Using CNU as a stepping stone from highschool to College/University where they want to go
 - d. Essay Ideas for application (Honors): Honor Code essay, start process at application level. Personal statement, stand out from rest of peers.
 - e. PLP: Application, no essay now. Add essays back in, not requiring it, but strongly suggesting the essay, leadership or honor topics
 - f. PLP: upper classmen help freshmen with applications and essays, for in regards to deciding factor. (juniors and seniors with 2 or 3 years in the program)
 - g. Other Thoughts: Channel 74, new Navigator news program 4 times a week, something like WCNU for students
 - h. More late night opportunities, with the new SU
 - i. Student section in Pomoco Stadium, needs to be students only as opposed to everyone. Put students all together
 - j. Senator Jaeschke: will want our support, or for admissions
 - k. VP Grace: another outlook for students to voice opinions, to voice concerns and then relate it to Senators.
- VI. Unfinished Business
 - a. Constitutional Amendment 09:06
 - i. Senator Peresich: Reworded a loophole for absenses created within the grace period
 - ii. Move to vote
 - iii. Unanimous consent
 - iv. Vote: 18-0-0 Amendment passes
 - b. Senate Proposal 10:06
 - i. Senator Peresich: This is what students expect, cafeteria style food, nothing needs to be fixed, nothing wrong or needs differentiation, Bill says CNU admin should abandon current efforts to outsource food. Maybe re-adjust next year.
 - ii. Senator Jaeschke: Point of inquiry, no word changes?
 - iii. VP Grace: nothing changed, just needed more opinion, and backing in order to pass and vote on this bill

- iv. Move to open discussion
 - 1. Second
 - 2. Unanimous consent
- v. Senator Rankin: It is premature, wanted to investigation, we should not end investigation
- vi. Senator Jaeschke: Still wording is a bit weak, makes strong statements, but does not use proper evidence
- vii. Senator Greene: now need to see how people feel
- viii. Senator Hamm: Everyone seems to be in favor of current staff
- ix. Senator Moore: most people enjoy it
- x. Senator Jaeschke: Most people didn't care, and the emotional factor should not be brought in to it
- xi. Senator Bailey: most students do not understand why the admin is doing this. What is the reasoning behind going to a third party contractor
- xii. VP Grace: if we don't do anything, then itll be past deadline, and changes will be made
- xiii. Senator Andrews: when we were discussing changes, noone new that a debate was going on, trying to be impartial when talking about it. Other examples, not many people seem to be that passionate either way. Giving VT example, seem to think they can go other places start to cut out meal plans. From upperclassmen
- xiv. Senator Blunt: most people are uneducated about this, need to have publications about pro/con chart. Need to educate student body as whole,
- xv. Senator Mays: agreeal with Senator Blunt, town hall coming soon, should not keep pushing this off.
- xvi. Senator Mascia: students were impartial. Keep on comparing us to other schools. Inconvineent time for some people for townhall meeting
- xvii. Peanut Gallery: Tribble says it will be econ. Advantage for our school, needs to specifically show people what he says. Mailing needs to be asserted, and needs to be shown why it is an economical advantage.
- xviii. Peanut Gallery (Farooq): Times and dates, of townhalls, two specific dates, and times it was because of scheduling. Committee progress really slow, students wont answer questions. Book how to best look at weighing the options and cost effective, and employee satisfaction, and other deeper motives and feelings. Trying to find feel for students on this issue.
- xix. Senator Andrews: feels like a smaller segment than what is actually there
- xx. Senator Greene: Cannot agree on this proposal, then what should we do, since we do not know the whole of the voice of the student body.

- xxi. Sgt. At Arms Dermer: what is asked from the student body, is not what the public wants, we need to look out for what's best for the student body. Gladly to entertain, to add section onto bill: we should have time period as to look at new SU before we take this further.
- xxii. Peanut Gallery (Ashley Moyer): RA- most students don't know what is going on, we need to have a clear picture of what is happening, and we need to be informed as to make the best decision. We should not push this through so soon.
- xxiii. VP Grace: handout at townhall, we do have a 2-300 dollar less meal plan as opposed to schools who had 3rd party contractor
- xxiv. Senator Rankin: need to make admin tell us what is actually motives, and what and why they are actually doing this. Admin do not even give answers at committee meetings, this is what we stand for
- xxv. Senator Peresich: pushed into action over summer, and need to make a one or two year moratorium to see reactions of students
- xxvi. VP Grace: worry about change in dining services: the committee that we made, it was very easy to make changes when students brought concerns to dining services, very easy to make changes, if we hire new company, it would be harder to change this.
- xxvii. Peanut Gallery (class): should keep dining services, nice friendly environment, helps to add the atmosphere
- xxviii. Peanut Gallery (class): should keep with now, new company would not be as friendly
- xxix. Peanut Gallery: setting sail, meals are big part about coming here, and seeing workers, and how they treat you. They have respect for you, and take jobs seriously, makes this campus like a community.
- xxx. Senator Peresich: promise to keep employees jobs, but could be transferred to other schools, and if they don't accept, they lose jobs, lose benefits
- xxxi. Senator Greene: Donna Eddlemen: soap box, should not get emotional, and have more rational ideas, but we should look at it from all sides, you should be emotional, if it matters that much to you. If you care so much, you should emote about it
- xxxii. Senator Jaeschke: we need to be logical about it, and include all evidence about it. We can include all numbers and make it a factual argument,
- xxxiii. VP Grace: channel emotional view into assertive, objective view. Have better chance of stopping it
- xxxiv. Senator Moore: don't want workers to lose jobs.
- xxxv. Senator Mays: understand Jaeschke wants evidence, but Farooq has evidence and the committee has evidence, wont make committee any faster

- xxxvi. Peanut Gallery (class): likes it, if we outsource, quality goes down, price goes up, a lot of students don't know anything about it.
- xxxvii. Senator Dermer: what Senator Mays said: about recycling act, we did not include every little thing about it, for other branch to figure out. If anything we do and pass here, does not effect it. It needs to go on the records. May reconsider down the road about this, and may change it.
- xxxviii. Peanut Gallery (class): anyway to compromise, to have outside vendor, and keep employees
- xxxix. VP Grace: from company, would rehiger people
 - xl. Senator Greene: Contractor will take over everything, be up to the employee
 - xli. Senator Rankin: company and employees have option to stay
 - xlii. Peanut Gallery (class): we loose the special things like special meals, and the good things about food.
 - xliii. VP Grace: students do not have say in theme dinners like vday and other days.
 - xliv. President Farooq: in defense of contracting out, they have best interest into students opinions, and they would have to do that, and appease customers. Difficult, because of heresy and speculation about hob-goblins and trolls. Reasons why schools contract out is because of low satisfaction, mal-management, long lines will always be there, and fiscally better decision. Food right now is overall outstanding from students perspectives. Kinds of questions to persuade committee either way about this stuff. Pitting management versus company,
 - xlvi. VP Grace: Position on committee, what is most beneficial thing to do
 - xlvi. President Farooq: take email and answer it. Not students responsibility, just raise awareness, and challenge what they have to say, encourage discussion
 - xlvi. Senator Jaeschke: Move to close debate
 - 1. Second
 - 2. Unanimous Consent
 - xlvi. Senator Peresich: move to amend bill to add section: there will be a two year moratorium to the bill, in order to assess new dining services cross out overwhelming to 5th whereas clause
 - 1. Second
 - 2. 16-2-0 Passes
- il: Senator Peresich: move to roll call vote
 - 1. second
 - 3. 12-2-4 Bill passes
- c. Senate Proposal 11:06
 - i. Radio Show- Aaron Ward: WCNU has had equipment and staff problems, rapid turnover of staff, rudimentary charter for the station, WCNU in final process in purchasing new server, should

have moratorium until have charter, new server, and others, will not go to AM/FM broadcasts or have any plans to go that way. Should have students show voice and be behind the station as to getting back on the air. Wants us to answer any questions so as to not go off the air because, endorsing students and other voices saying we want it back on the air. Have lack of exposure. (questions poised by Senator Jaeschke).

- ii. Senator Hamm: radio station would be cool, just wouldn't work, freshman want it to happen
- iii. Senator Greene: refresh memory, server problems and
- iv. Aaron Ward: taken off air because of server problems and internal structure problems. To get new charter
- v. Senator Greene: anything over content?
- vi. Aaron Ward: internal problems no content problems, before 3-4 years we did have problems
- vii. Senator Jaeschke: to broadcast over internet, is there any standards for internet communication
- viii. Aaron Ward: will have guidelines in order to cater to the university community
- ix. Senator Peresich: looking into purchasing any more or new equipment
- x. Aaron Ward: looking for new server.
- xi. Senator Bailey: last week were we here to speed up process, what is it worth if we are speeding up process, if we are waiting for work on radio's time
- xii. Senator Dermer: not so much to speed up process, cut through any unneeded red tape that is there, that shouldn't be there.
- xiii. Senator Jaeschke: section 1, WCNU still could not broadcast if we past this. Have to wait until moratorium is lifted.
- xiv. Aaron Ward: should be able to broadcast by end of semester
- xv. Senator Dermer: move to vote
- xvi. Unanimous consent
- xvii. 10-0-8 motion passes

VII. Executive Reports

- i. (no executive report)

VIII. Elections

- a. Josh Fulghum: timeline and campaign rules, limitations, March 20th apps suppose to be due, extend this to Friday 24th at 5pm. Campaign begins Saturday 25th. All on application. Overview of election.
- b. Senator Hamm: can have campaign material up until election day close to voting, not days of.
- c. Josh: can campaign outside
- d. Senator Dermer: amount of money being spent: be able to circumvent that. Somehow to curtail the money spent manner.

- e. Presidnet Farooq: they will be ushered away.
- f. Senator Bailey:

I AM GOING TO CLAss

Move to adjourn second everything unanimous.
