TO: Faculty Teaching in Summer School

FROM: Academic Technology Advisory Committee (ATAC) of the Faculty Senate

SUBJECT: Summer Opportunity to Experiment with Moodle, a Course Management System similar to WebCT

ATAC, IT Services and the College of Liberal Arts and Sciences are interested in finding five faculty who will use the Moodle (http://moodle.org) software in their classes this summer, three with experience with WebCt and two who have not used a course management system. WebCt will no longer be available as a course management system after the 2007-2008 academic year.

In return for evaluating Moodle, the five faculty will each receive a $500 honorarium. These stipends will be paid at the end of the summer sessions and are sponsored jointly by the College of Liberal Arts and Science and IT Services.

If you are interested in participating in this evaluation, please email Kip Redick by May 1(kredick@cnu.edu) with the name of your class, whether you have used WebCT before, and if you have, how extensive is that use, or fill-in the form below and send in campus mail to Kip Redick, Philosophy and Religious Studies Dept.   Participants will be selected by ATAC and will be notified by May 15.

Thanks,

Kip Redick
